## **PRINCIPAL'S MESSAGE**

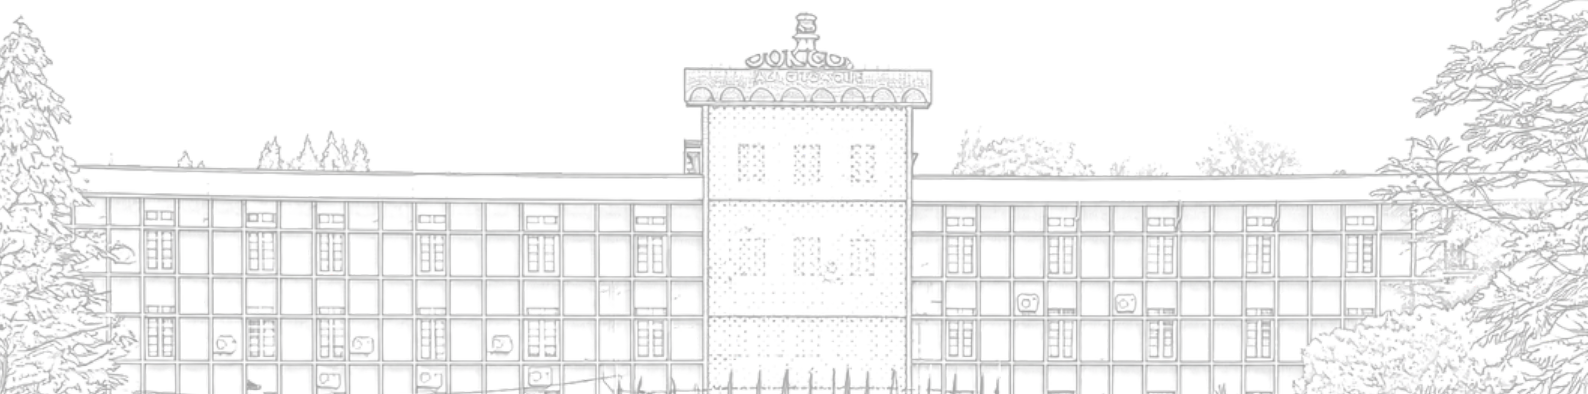

It gives me great pleasure to present the Summer Internship Programmes – 2026 of Farook College (Autonomous), Kozhikode. Rooted in our institutional mission of fostering academic excellence, holistic development, and socially responsible education, these programmes are designed to bridge the gap between classroom learning and real-world application.

In today's rapidly evolving knowledge economy, education must go beyond theoretical understanding and equip students with practical skills, research capabilities, and critical thinking. The internship initiatives offered across multiple disciplines reflect our commitment to nurturing competent, innovative, and ethically grounded individuals who can effectively respond to contemporary societal and economic challenges

These programmes provide students with valuable opportunities for hands-on learning, research exposure, and skill development, thereby enhancing their career readiness and employability. By integrating academic knowledge with experiential learning, Farook College continues to uphold its vision of creating empowered learners who contribute meaningfully to society.

I appreciate the efforts of the Internship Cell, faculty coordinators, and all stakeholders in organizing these programmes with a strong focus on quality and relevance. I encourage students to actively participate, make the most of this opportunity, and take a confident step towards their professional future.

**With best wishes,  
Principal  
Farook College (Autonomous), Kozhikode**

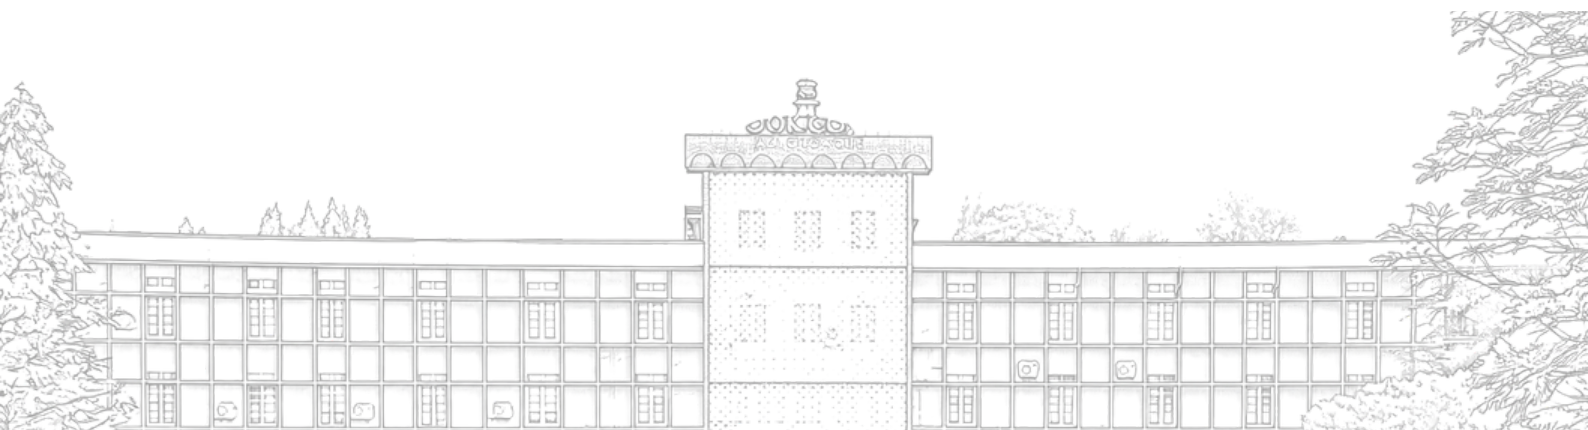

## PROGRAMME OVERVIEW

The Summer Internship Programmes – 2026 at Farook College (Autonomous), Kozhikode are carefully designed to enhance students' skills, research capacity, and career readiness through structured, hands-on learning experiences. Offered across multiple disciplines including Economics, Chemistry, Mathematics, English, Arabic, and Multimedia, these fully offline and intensive programmes provide a minimum of 60 hours of engagement, combining theoretical understanding with practical application such as data analysis, laboratory work, and creative projects. With limited intake and guided by experienced faculty coordinators, students gain exposure to real-world problem solving, research methodologies, and professional skill development. The programmes also include a mini research or project component, culminating in a certificate of completion, thereby ensuring that participants acquire both academic depth and employability skills in a focused and supportive learning environment.

## WHY CHOOSE FAROOK COLLEGE?

- NAAC A+ Accredited Institution with a strong reputation for academic excellence
- A vibrant research-driven academic ecosystem fostering innovation and critical thinking
- Experienced and dedicated faculty with interdisciplinary expertise
- A proven track record in delivering high-quality skill development and training programmes
