## Introduction

Farook College made first-hand impressions in the rich tapestry of Kerala history and remained a beacon of enlightenment in the wake of the freedom of India. Established in 1948, this institution of higher education was conceived with the noble mission of dispelling darkness that had cloaked a community for generations. The college heralded an educational revolution across Malabar and emerged as a mainstay of social uplift in its milieu.

Nurtured under the auspices of the Rouzathul Uloom Association, the parent body of all institutions on the campus, Farook College embarked on a journey to pioneer the educational reforms across the region ever since its inception. Initially, it was the only First Grade College in central Malabar, affiliated to the prestigious Madras University. Following the state's reorganization, the college was affiliated to the University of Kerala in 1957 and to the University of Calicut in 1968.

Today, Farook College is the largest residential postgraduate institution in the state. It offers 22 undergraduate, 1 integrated, 15 postgraduate, and 3 diploma programmes. Eleven of its postgraduate departments have gained recognition as research centres, attesting to its commitment to academic excellence and research orientation. Housed in a residential pattern, the college affords abundant opportunities for academic and co-curricular pursuits, facilitating the holistic development of the students and enriching their life experiences. The college embraces diversity, admitting students from all castes and creeds and catering to the special needs of the students belonging to minorities and underprivileged sections of the society. This inclusive ethos fosters a harmonious atmosphere on the campus, embodying the principle of unity in diversity.

## Digital Hub

In the quest for improving education system, technology has played the most vital role in automating tasks which are time-consuming and monotonous. Software can be used for all the academic and administrative processes like admission, examination, attendance, fee collection, etc. in an educational institution. Evaluation and perception of institutions by Government or public agencies and general public are to be improved for grabbing high demand, value and ranking. State of the art ERP solutions tailored to fit the institution open up new vistas to connect, collaborate and communicate with the stake holders and public. A dedicated and resourceful team of high competency with necessary facilities can provide such a digital state in a fast growing institution.

A Digital Hub catering to all the technological needs of the institution has been envisaged. This Digital Hub is expected to ensure quality of solutions, continuity of implementation, higher levels of confidentiality,
